For some select companies, up to 80% of their revenue comes from digital avenues.

For some select companies, up to 80% of their revenue comes from digital avenues.

However, making the “digital transformation” can make the company actually deliver less profit(up to 45% less).

For some select companies, up to 80% of their revenue comes from digital avenues.

However, making the “digital transformation” can make the company actually deliver less profit(up to 45% less).

What can you do to increase the chances of success when going digital?

Two things to do

1. **Laying out clear priorities**

Two things to do

1. **Laying out clear priorities**
2. **Investing in talent**

Laying Out Clear Priorities

Laying Out Clear Priorities

When the executives have a clear vision, there appears to be a higher likelihood of success.

Laying Out Clear Priorities

When the executives have a clear vision, there appears to be a higher likelihood of success.

People need to know what they are working for in order to do it effectively.

Investing in Talent

Invest in talent, especially at the top fam..
